All the work will be under the direct supervision and guide of the Medical Chief of the home, Dr. Carmelo Vasquez, pediatrician. They often have young volunteers, mainly from Europe, from churches, missions, and so. But this time they would like to welcome professional help. This is a home for 115 children (also grown ups) with different types of disabilities, mostly brain paralysis, autism, and so. It is runned by the catholic church, an order of priests from Colombia, but they also have support from the state government. The administration is professional (paid by the state government). The medical staff is also paid by the government, but they need more. More information available with IAESTE Bolivia, upon request.
